

IGU

The Intensive Gainz Unit

CLIENT GUIDE

Your IGU Guide for Clients

Everything you can do on IGU as a client, explained in full — every feature, step by step, with answers to the questions you might have along the way.

Welcome to IGU

IGU (The Intensive Gainz Unit) is an online coaching platform that connects you with a real coach and gives you the tools to train, eat, and track your progress in one place. This guide explains everything you can do as a client — in plain language, with step-by-step instructions for every feature.

It is also the foundation for our in-app Help, FAQ, and Tutorial sections, and is designed to be complete enough to answer almost any question you have.

How to use this guide

Part 1 is the big picture. Part 2 walks through every feature you'll use day to day. Part 3 explains how your plan shapes what you see, and Parts 4–6 are the FAQ, glossary, and how to get help.

What's inside

1. How IGU works	the big picture
2. Every feature, step by step	your tools
3. How your plan changes what you see	plans explained
4. Frequently asked questions	FAQ
5. Glossary of IGU terms	definitions
6. Getting help & your privacy	support

1 How IGU works

IGU pairs you with a coach and gives you everything you need in one place. What you see depends on your plan and where you are in setting up.

Who you'll work with

Your main contact is your coach, who handles your training and nutrition. Specialist support — a dietitian, physiotherapist, and more — can join your **care team** as optional add-ons, launching soon.

Who	What they do for you
Coach	Your main point of contact — your training program, nutrition guidance, and overall progress.
Head coach	A senior coach who leads team plans.
Dietitian	A nutrition specialist (available as an add-on, launching soon).
Physiotherapist	Injury, rehab, and movement (available as an add-on, launching soon).
Sports psychologist	Mindset, motivation, and performance (add-on, launching soon).
Mobility coach	Flexibility and movement quality (add-on, launching soon).

Specialists as add-ons

Your coach handles your training and nutrition. Specialist support — a dietitian, physiotherapist, and more — is launching soon as optional add-ons you can attach to any plan.

The four plans

You choose one plan when you join. It sets who is on your coaching team and how your training is delivered.

Plan	Who coaches you	Best for
Team Plan	A head coach, shared group track	Affordable, structured group coaching
1:1 Online	Your own coach, fully online	Personalised online coaching
Hybrid	Your own coach, online + in person	In-person sessions plus online support
In-Person	Your own coach, in person	The most hands-on, in-person experience

What it costs

The **Team Plan** is a flat **10 KWD/month**. The three 1:1 plans are priced by your coach's experience level (Junior, Senior, or Lead) — a more senior coach costs a little more. All prices are KWD per month.

Plan	Junior coach	Senior coach	Lead coach
1:1 Online	30 KWD	35 KWD	40 KWD
Hybrid	95 KWD	110 KWD	125 KWD
In-Person	145 KWD	175 KWD	215 KWD

Why the price varies

On the 1:1 plans your price depends on the experience level of the coach you're matched with. You'll always see the price before you confirm.

Add-ons

On any plan you can add one-off extras — like single sessions or session packs — without changing your main plan. **Nutrition (dietitian) and physiotherapy add-ons are launching soon.**

Your account status

Your experience is also shaped by your account status. IGU always shows which stage you're in and what to do next — it never hides things without explanation.

Status	What it means & what you'll see
Setting up	You've started but not finished joining — the app shows your next step (finish registration, await medical review, await coach approval, or activate).
Active	Fully set up — everything is unlocked.
Grace period	A payment is overdue — you keep view access with a countdown to renew, but new session bookings pause.
Suspended / inactive	Access is locked until you renew or contact support.
Cancelled / expired	Your plan has ended — a friendly screen explains how to come back.

2 Every feature, step by step

Everything you can do as a client, grouped by area. Each feature has a short description and the exact steps to use it. Notes mark anything that differs by plan.

2.1 Getting started

Signing up & completing the intake form

The intake form is a short wizard that joins you to IGU. It collects your details, goals, and plan, and saves your progress so you can finish later.

- 1 Go to theigu.com and choose a plan, or open your sign-up link.
- 2 Step 1 — enter your name, contact details, date of birth, height, and goals, and pick your plan.
- 3 Step 2 — answer the plan-specific questions (team plans ask you to acknowledge a few points; 1:1 plans ask about experience, training days, and gym access).
- 4 Step 3 — answer the seven health (PAR-Q) questions honestly.
- 5 Step 4 — read and accept the legal agreements.
- 6 Tap Submit Application, or Save & Exit to return later.

1:1 plans: Step 1 lets you name a preferred coach. Team-plan sign-ups skip this — you choose a team after activation.

The health check (PAR-Q)

Seven yes/no questions that help us confirm training is safe for you before you start.

- 1 Answer each question truthfully.
- 2 Add any injuries or conditions in the notes box if relevant.
- 3 Submit — if anything is flagged, your application goes to a brief medical review.

Your medical answers are private and encrypted. Your coach only sees whether you're cleared to train — never the raw details.

Following your activation journey

After you submit, IGU walks you through a few stages and updates each screen automatically.

- 1 Medical review (only if flagged) — usually 24–48 hours.
- 2 Coach approval — we match you with a coach (or your preferred coach).
- 3 Activation — once approved, you complete the final step to switch your account on.
- 4 Active — your full dashboard unlocks on its own.

Activating your account

The final step that turns your account on after your coach approves you.

- 1 Review your plan on the activation screen.
- 2 Enter a promo code if you have one.

- 3 Complete the secure checkout.
- 4 Your dashboard unlocks once it's confirmed.

Choosing your team — Team Plan only

Team-plan members join a coaching group led by a head coach.

- 1 On your dashboard, open the Choose your team prompt.
- 2 Review the available teams and their spaces.
- 3 Select a team and confirm Join Team.

Team Plan only. 1:1 clients get a personal coach instead.

Changing your team — Team Plan only

Move to a different team if your goals or schedule change.

- 1 Open your team card and choose Change team.
- 2 Pick a new team and confirm.

Team changes are limited to roughly once per billing cycle, so choose deliberately.

2.2 Your dashboard

Reading your dashboard

Your home base, built to answer “what should I do today?” — today's workout, nutrition targets, weekly progress, your coach, billing, and alerts.

- 1 Log in to land on your dashboard.
- 2 Scan the cards top to bottom — today's workout first.
- 3 Tap any card to jump into that area.

Logging your weight and steps (Log Today)

A quick daily check-in for body weight and steps, right from the dashboard.

- 1 Find the Log Today card.
- 2 Enter today's body weight (kg) and step count.
- 3 Save — it counts toward your weekly weigh-in goal (aim for three a week).

Requesting a deload

A deload is a lighter recovery week. Ask your coach for one when you're feeling run down.

- 1 Tap Request a deload on your dashboard.
- 2 Add an optional note about how you're feeling.
- 3 Submit — your coach is notified and reviews it.
- 4 If declined, you can ask again after a short cool-off.

Acting on alerts & reminders

Context banners flag anything needing attention — an upcoming renewal, a missed weigh-in, or a lapsed plan — each with a button to fix it.

- 1 Read any banner at the top of your dashboard.
- 2 Tap its action (e.g. Renew) to resolve it.

2.3 Workouts

Starting and logging a workout

The core training experience: open your session and record every set — weight, reps, and effort — with videos, your coach's notes, and a rest timer.

- 1 From your dashboard, tap Start on today's workout.
- 2 For each exercise, check the target (reps, effort, rest) and tap the video for a demo.
- 3 Enter weight, reps, and effort for each set, then tick the set off — it saves instantly.
- 4 Use the rest timer between sets (pause or skip as needed).
- 5 When every set is logged, tap Complete Workout.

Using the rest timer

A built-in timer that starts when you finish a set so you rest the right amount.

- 1 Tick a set as done — the timer starts automatically.
- 2 Pause or skip with the controls.
- 3 Start your next set when it ends.

Swapping an exercise

Replace an exercise you can't do with a suitable alternative.

- 1 Open the exercise's menu and choose Swap.
- 2 Pick an alternative (same-muscle options are suggested first).
- 3 Log the new exercise as normal, and message your coach so they can update your plan.

Viewing your workout calendar

A month view of your training with colour-coded days — completed, partial, and upcoming.

- 1 Open Calendar from the workouts menu.
- 2 Move between months and read the colour key.
- 3 Tap a day to see its sessions and open one.

Reviewing your exercise history

See how a specific lift has progressed over time.

- 1 Open Exercise History.
- 2 Search for and select an exercise you've logged.
- 3 Review the trend and the set-by-set table.

Browsing the exercise library

A searchable reference of exercises with videos and setup/execution guidance.

- 1 Open the Exercise Library.
- 2 Search or filter by muscle group.
- 3 Open an exercise to watch the video and read setup, execution, and common pitfalls.

2.4 Nutrition — 1:1 plans

On the 1:1 plans (Online, Hybrid, In-Person) your coach sets and adjusts your targets; you log your data and complete a weekly check-in. A dedicated dietitian add-on is launching soon — when you add it, the dietitian leads your nutrition.

Understanding your nutrition phase

Your phase card shows your current coach-set targets — daily calories and macros — and your progress against the expected rate.

- 1 Open Nutrition.
- 2 Read the phase card: calories, protein/fat/carbs, your goal, and an on-track status.

Logging your weight

Regular weigh-ins are how your coach tracks progress and adjusts your plan.

- 1 In Nutrition, go to This Week (or use Log Today).
- 2 Enter your weight and save — aim for at least three weigh-ins a week.

Logging steps

Record your daily steps to support your nutrition tracking.

- 1 Open the step logging card in This Week.
- 2 Enter the date and step count and save.

Logging measurements

Track body measurements (e.g. waist, chest, hips, thighs) when your plan schedules them.

- 1 In This Week, open the measurements section when available.
- 2 Enter each measurement and save.

Logging body fat

Record body-fat percentage for a fuller progress picture.

- 1 Open the body-fat form in This Week.
- 2 Enter your percentage and method and save.

Completing your weekly check-in

A short weekly review where you report adherence and how you're feeling so your coach can adjust.

- 1 Log at least three weigh-ins that week to unlock the check-in.
- 2 Answer the questions (calories hit, physical changes, tracking accuracy) and add notes.
- 3 Submit — your coach reviews it and may adjust your targets.

Viewing your nutrition history

Long-run graphs of your weight and body fat, plus a summary when a phase completes.

- 1 Open the History tab in Nutrition.
- 2 Review your weight and body-fat trends over time.

2.5 Nutrition — Team Plan

Team-plan members manage their own nutrition with a guided calculator; your coach can still review it.

Setting your own nutrition goal

A step-by-step calculator works out your calories and macros from your stats and goal.

- 1 Open Nutrition and choose Goal Setting.
- 2 Work through the wizard: weight, height, age, gender, activity level, goal type, and rate.
- 3 Review the calculated calories and macros and Save — they become your active targets.

Tracking your progress

A week-by-week tracker for your self-managed plan.

- 1 Open the Progress Tracker tab.
- 2 Expand each week to log your data and view your weight and body-fat graphs.

On the Team Plan you manage your own nutrition. On the 1:1 plans your coach manages it for you, and a dedicated dietitian add-on is launching soon.

2.6 Education

Watching educational videos

A learning library organised into helpful sections — required for you, tied to your current program or phase, from your coach, and more.

- 1 Open Educational Videos.
- 2 Browse the sections or search for a topic.
- 3 Open a video to watch it in the secure player.
- 4 Tap Mark as Complete when done.

Following a learning path

Structured sequences of videos that build on each other.

- 1 Open the Learning Paths tab.
- 2 Start a path and work through its videos in order.

Watching content your coach assigned

Your coach can assign specific videos with a due date; these are highlighted for you.

- 1 Look for the “required” or “from your coach” highlights on your dashboard or in the library.
- 2 Open and complete them — your coach can see your progress.

2.7 Sessions

Available on plans that include session booking.

Booking a 1:1 session

Book coaching sessions against your weekly allowance.

- 1 Open Sessions and check your weekly usage.
- 2 Pick a date and choose an available slot.
- 3 Confirm to book — it appears in your upcoming list.

Cancelling a session

Free up a booking if your plans change.

- 1 Find the session in your Upcoming list.
- 2 Choose Cancel and confirm — your allowance updates.

Grace period: if a payment is overdue you keep view access, but new bookings pause until you're paid up.

2.8 Messages

Messaging your care team

One shared thread with everyone coaching you — ask anything day to day.

- 1 Open Messages.
- 2 Type your message and send (Cmd/Ctrl+Enter on desktop; a drawer on mobile).
- 3 Your coach is notified and replies in the same thread.

Editing or deleting your message

Fix a typo or remove something you sent.

- 1 Open the menu on your own message.
- 2 Choose Edit (an “edited” tag and history are kept) or Delete (it shows as removed).

2.9 Add-ons

Browsing and adding an add-on

Optional extras on top of any plan — for example single sessions or session packs.

- 1 Open Add-on Services.
- 2 Filter by type and open an add-on to see what's included, pack size, and eligibility.
- 3 Choose it, set the quantity, and complete the secure checkout.
- 4 It's confirmed once checkout completes.

Coming soon: nutrition (dietitian) and physiotherapy add-ons are launching soon. **Tier eligibility:** some specialist add-ons are only available on certain plans; ineligible ones show which plan is required.

Ending a recurring add-on

Stop a recurring specialist add-on at your next renewal.

- 1 Open your care team card on the dashboard.
- 2 On the relevant add-on, choose End at renewal and confirm.

2.10 Billing & account

Renewing your subscription

Plans renew monthly with no stored card, so you confirm your renewal each month.

- 1 Open Billing (or tap a renewal reminder).
- 2 Review your plan and tap Renew.
- 3 Complete checkout — access updates as soon as it confirms.

Updating your profile

Keep your details current; your nutrition tools use your latest stats.

- 1 Open Account.
- 2 Edit your name, date of birth, gender, height, activity level, or phone.
- 3 Save. To change your email, follow the confirmation step shown.

Changing your password

Update your sign-in password.

- 1 In Account, open the password section.
- 2 Enter a new password and save.

Requesting a coach change

Ask to be moved to a different coach.

- 1 In Account, open the coach section and choose Request coach change.
- 2 Pick a preferred coach if offered and submit — our team follows up.

Cancelling your subscription

End your plan at the close of the current billing period.

- 1 In Account or Billing, open subscription management.
- 2 Choose Cancel and confirm — access continues until the period ends.

Deleting your account

Permanently close your account.

- 1 In Account, scroll to the Danger Zone.
- 2 Choose Delete account and confirm — you'll be signed out.

Using the calorie calculator

A free tool to estimate calories and macros; for signed-in clients it pre-fills your stats.

- 1 Open the Calorie Calculator.

- 2 Use the Initial Calculator for a fresh estimate, or the Adjustment Calculator to tweak a plan.
- 3 Review the result — it's a tool only and doesn't save to your plan.

3 How your plan changes what you see

The same app adapts to your plan. Here's what differs.

By plan

What changes	Team Plan	1:1 plans (Online / Hybrid / In-Person)
Price	Flat 10 KWD/month	By your coach's level (see the price ladder)
Your coach	A shared head coach for the team	Your own dedicated coach
Nutrition	Self-service with a guided calculator	Coach-managed for you
Dietitian	Optional add-on (coming soon)	Optional add-on (coming soon)
Team step	You choose (and can change) your team	Not applicable
In-person sessions	No	Yes on Hybrid & In-Person
Workouts & tracking	Included	Included

Same app, tailored view

Everyone gets the dashboard, workout logging, messaging, and the exercise and video libraries. Your plan decides who is on your team and whether nutrition is self-managed or coach-managed.

By account status

Status	What it means & what you'll see
Setting up	You've started but not finished joining — the app shows your next step (finish registration, await medical review, await coach approval, or activate).
Active	Fully set up — everything is unlocked.
Grace period	A payment is overdue — you keep view access with a countdown to renew, but new session bookings pause.
Suspended / inactive	Access is locked until you renew or contact support.
Cancelled / expired	Your plan has ended — a friendly screen explains how to come back.

4 Frequently asked questions

Joining & getting started

“How do I sign up?”

Choose a plan at theigu.com and complete the intake wizard. You'll go through a quick health check, get matched with a coach, and activate your account.

“Why does my application need a medical review?”

If your health questionnaire flags anything we should check first, we pause briefly (usually 24–48 hours) to make sure training is safe for you.

“Can I choose my coach?”

On 1:1 plans you can name a preferred coach during sign-up. If they have space we'll match you; otherwise we'll assign the best-fit coach.

“How long until my account is active?”

Once your coach approves you and you've activated, your full dashboard unlocks right away.

“Can I finish signing up later?”

Yes — use Save & Exit in the intake form and your progress is kept (your health answers aren't stored in drafts, for privacy).

Plans, renewals & billing

“How much does it cost?”

The Team Plan is a flat 10 KWD/month. The 1:1 plans are priced by your coach's level — 1:1 Online from 30 KWD, Hybrid from 95 KWD, and In-Person from 145 KWD per month. You'll always see your exact price before you confirm.

“Why does my price depend on my coach?”

On the 1:1 plans, a more senior coach (Senior or Lead) costs a little more than a Junior coach. Your price is set by the level of the coach you're matched with, and it's shown before you pay.

“How does billing work?”

Plans renew monthly. There's no auto-stored card — you confirm your renewal each month and we remind you before it's due.

“What happens if I miss a renewal?”

You enter a short grace period: you keep view access with a countdown to renew, though new session bookings pause. If it lapses further, access is locked until you renew.

“Can I change my plan or cancel?”

Yes. Manage your subscription from Account or Billing. Cancellations take effect at the end of your current billing period.

“What are add-ons?”

Optional extras on top of any plan — for example single sessions or session packs. Nutrition (dietitian) and physiotherapy add-ons are launching soon.

“Can I use a promo code?”

Yes — enter it at checkout and any discount is applied before you confirm.

“Why is a feature greyed out?”

It's usually tied to your plan or account status. The on-screen message explains which, and what to do.

Training & nutrition

“What if I can't do an exercise?”

Use Swap during your workout to pick an alternative, and message your coach so they can adjust your program.

“Do I have to log every set?”

It's how your coach sees your progress and adjusts your plan, so it's strongly encouraged — and the rest timer and history make it quick.

“Who sets my nutrition targets?”

On the 1:1 plans your coach sets and adjusts them (a dedicated dietitian add-on is launching soon). On a team plan you set your own with the guided calculator, and your coach can review them.

“What is a deload and how do I request one?”

A lighter recovery week. Request one from your dashboard; your coach reviews and schedules it.

“Where do I update my body stats?”

In Account. Your nutrition and calculators use your latest values.

“How often should I weigh in?”

Aim for at least three weigh-ins a week — it also unlocks your weekly check-in.

Coaches & communication

“How do I contact my coach?”

Use Messages for anything day-to-day. Your whole care team can see and respond there.

“Can I change my coach?”

Yes — request a coach change from your Account page and our team will help.

“Can my coach see my medical information?”

No. Your medical answers are private and encrypted. Your coach only sees whether you're cleared to train.

“Who is on my care team?”

Your main coach — shown on your dashboard. Specialist support (a dietitian, physio, and more) is launching soon as optional add-ons that join your care team.

5 Glossary of IGU terms

Plain-language definitions of the words you'll see around IGU.

Term	What it means
Care team	Everyone coaching you — your main coach plus any specialists (dietitian, physio, etc.).
Phase	A block of your nutrition plan with a specific goal (e.g. fat loss or muscle gain) and its own targets.
Macros	Short for macronutrients — protein, carbohydrates, and fat. Your daily targets for each.
Deload	A planned lighter week to let your body recover before training hard again.
Diet break / refeed	Short, planned increases in food during a fat-loss phase to aid recovery and adherence.
RIR / RPE	Ways to measure effort. RIR = reps in reserve (how many you had left); RPE = rate of perceived exertion (how hard it felt).
Tempo	How fast you perform each rep — e.g. lowering slowly for control.
Program / mesocycle	Your training plan over a block of weeks.
Adherence	How consistently you follow your plan — tracked weekly.
Weekly check-in	A short weekly review where you report how the week went so your coach can adjust.
Team plan	A group coaching track led by a head coach that several clients follow together.
Head coach	A senior coach who leads team plans.
Grace period	A short window after a missed renewal where you keep limited access while you renew.
Add-on	An optional extra — a session, a pack of sessions, or a specialist — on top of your plan.
PAR-Q	The short health-readiness questionnaire you complete when joining.

6 Getting help & your privacy

Getting help

- **Ask your coach** — for anything about your training, nutrition, or plan, Messages is the fastest route.
- **Check your status banners** — if a feature seems missing, your dashboard usually explains why (for example, awaiting renewal) and what to do next.
- **Contact support** — for billing, account, or technical issues, use the contact option on theigu.com or your account page.

Quick troubleshooting

- **Can't log in?** Use "reset password" on the sign-in screen.
- **A page won't load?** Refresh, or sign out and back in.
- **Feature greyed out?** It's usually tied to your plan or account status — the on-screen message will say which.
- **Renewal didn't go through?** Head to Billing and try again; access updates as soon as it confirms.

Your privacy

- **Your medical answers are private and encrypted.** Coaches see only whether you're cleared to train — never the raw details.
- **Your personal contact details** (email, phone, date of birth) are kept separate and protected; coaches don't have access to them.
- **Checkout is handled securely** through a trusted provider — we don't store your card.
- **You're in control.** Update your details, change your plan, or close your account from your account page at any time.

Welcome to the unit

That's the full tour. The best way to learn IGU is to dive in — your dashboard always points you to the next step. We're glad you're here.
